

THE STATE OF UTAH
OFFICE OF STATE ENGINEER
SALT LAKE CITY

HAROLD A. LINKE
STATE ENGINEER

May 8, 1950

Dear Sir:

RE: LONG VALLEY DISTRIBUTION

Water Users on the East Fork of Virgin River in Long Valley have requested that a Water Commissioner be appointed by the State Engineer for distribution of water on this stream for the irrigation season of 1950.

Therefore, you are hereby notified that a meeting of Water Users on said stream will be held Friday, May 19, 1950, at the hour of 1:00 p.m. at the home of Mr. Birt Gardner, Mount Carmel, Utah. At this meeting, the Water Users are to recommend to the State Engineer, some competent person to act as Water Commissioner to distribute the waters of said stream during the irrigation season of 1950; the duties he shall perform, and the compensation he shall receive.

It is requested that the secretary of the meeting keep complete minutes, which minutes should be submitted to the State Engineer. These minutes should indicate the number of persons present; the action taken; the name and address of the person recommended for appointment as Water Commissioner, and detailed information relative to his qualifications in order that the State Engineer may determine his fitness for appointment. It is also requested that minutes of the meeting show definitely whether or not a majority of the Water Users were present and the definite action taken.

It is assumed that the Water User's Committee appointed at this meeting will arrange for collecting the necessary funds to compensate the Water Commissioner and that payment will be made direct to the Water Commissioner by said Committee acting for the Water Users.

It is also necessary to submit \$5.00 as premium for a Surety Bond to cover the Water Commissioner selected. If a check or money order is submitted, it should be made in favor of the State Engineer.

Yours truly,

Harold A. Linke
STATE ENGINEER
